

WASRUIMTE

WASRUIMTE

This white-tiled space is called 'De Wasruimte' (the Washroom) for a reason. In the past, the workers from the **Machine Hall** would change into and out of their work clothes here and take a shower after a hard day's work. Today, the space is perfectly suited for a small conference, meeting, gathering, training course, reception or corporate event. The Washroom gives you the freedom to experiment.

A solid foundation

The Washroom is equipped as standard with:

- AV set including: projector | screen | sound system | 2 microphones
- 7 square cocktail tables | 9 double cocktail tables
- 35 high leather bar stools
- 180 theatre-style chairs
(additional chairs available on request)

Venue hire includes

- Private entrance
- Atmospheric lighting
- Use of the bar and refrigeration units
- Corridor with green cocktail tables and hanging chairs

The Kitchen

Everything is freshly prepared in our own kitchen, which is located separately from De Wasruimte. If you choose one or more of our catering packages, use of the kitchen is always included in the venue hire. If you work with an external caterer, please note that the kitchen, including its equipment, can be rented separately.

The Production Room

Need more space? For larger events, it is possible to rent The Production room in addition to De Wasruimte. It can be connected to the kitchen or used as a separate breakout space. The Production room is rented as standard without furniture or technical equipment.

The logo consists of the letters 'WA' stacked above 'S' in a bold, sans-serif font, enclosed within a light blue circle. The background of the entire slide is a photograph of a modern interior space with a grid wall, purple lighting, and large cylindrical ducts. A semi-transparent purple circle is centered over the image, containing the text and list. The bottom of the slide features a dark teal curved shape with a row of leather chairs.

THE WASTE FACTORY

Every year, large quantities of fresh vegetables go to waste because they are too small, misshapen, uneven in appearance or considered “unusable,” such as the tops and stalks. These vegetables are given a second life by being transformed into delicious soups and sauces of The Waste Factory.
